(as appears on card)

"Embrace The Gift of Life" is a special annual charity project that Shangri-La Kuala Lumpur started back in 1985. Its purpose is to help children with severe heart ailments and other serious medical conditions. Thanks to the generosity of our patrons, Shangri-La Kuala Lumpur has raised over RM4 million and supported hundreds of critically ill children through this wonderful charity project.

We would like to invite you and your organisation to support this annual fund-raising charity project by sponsoring one or more figurines that make up this giant Christmas Tree with a minimum donation of RM1,100 per ornament. All proceeds go to the children who are in urgent need of funds for immediate surgery and medical care.

This year, six variations of 'The Enchanted Wonders' ornaments, all meticulously handcrafted and creatively arranged on the giant tree by our team of talented pastry experts, led by our Pastry Artist, Wayne Siow. These colourful sugar paste sets are skillfully placed on a 10-tiered conical steel structure, forming an impressive Christmas Tree.

What makes it truly magical is that each tier of the tree rotates, offering a captivating view of the baubles. The donor's name or company logo will be prominently displayed with each set of figurines.

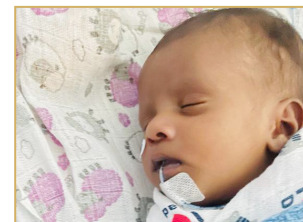

There are also five exclusive **limited edition designs** for donors to sponsor at RM5,000 each.

**7 months Mohamad Adam Bin Shamsudin** has been diagnosed with Atrial Septal Defect (ASD), a hole in the upper chamber, along with partial anomalous pulmonary venous drainage, where blood from the lungs enters the wrong chamber. He is currently at home, awaiting corrective surgery. The estimated cost of the surgery is RM80,000.

**1 month old Muhammad Fath Dhani Bin Muhammad Farhan** has been diagnosed with Anomalous Pulmonary Venous Drainage (TAPVD), a condition where the blood flow returning from the lungs is draining abnormally. He needs to undergo surgery (repair of TAPVD) to correct the anomalous drainage of blood flow returning from the lungs. The estimated cost of the surgery is RM80,000.

**2 months old Sudharshanan A/L Anandkumar** has been diagnosed with Total Anomalous Pulmonary Venous Drainage (TAPVD), where the blood flow returning from the lungs is draining abnormally. He needs to undergo surgery (repair of TAPVD) to correct the anomalous drainage of blood flow returning from the lungs. The estimated cost of the surgery is between RM80,000 to RM90,000.

**4 years old Mohamad Aidil Zahwandi Herliady Bin Abdullah** has been diagnosed with a heart condition identified as Moderate DCSA Ventricular Septal Defect with Mild Atrial Regurgitation. He requires to undergo surgery, ventricular septal defect closure. He is currently at home in Sabah waiting for surgery. The estimated cost for his treatment is RM80,000.

**1 year old Qilla Zhafirah Binti Mohd Jamil** has Down syndrome and a heart condition identifies as Moderate Secundum Atrial Septal Defect with a small Patent Ductus Arteriosus in failure. Her prescribed treatment includes PO Frusemide 6mg BO and PO Captopril 2mg BO and need to undergo Atrial septal defect closure and patent ductus arteriosus ligation, with an estimated cost for the surgery being RM80,000. She is currently in Tawau Sabah waiting for treatment.
